

BSA MCS Concentrations

Mellon College of Science Concentrations

(number of courses vary, 114-145 units)

BSA students declare one of the following concentrations, through consultation with their BXA advisor and the MCS concentration advisors. A completed MCS Concentration Declaration form must be approved by the concentration advisor and submitted to the BXA office, by spring mid-semester break of the student's sophomore year.

- Biological Sciences (<http://coursecatalog.web.cmu.edu/intercollegeprograms/bxaintercollege/science-arts/mcs-concentrations/biological-sciences/>)
- Chemistry (<http://coursecatalog.web.cmu.edu/intercollegeprograms/bxaintercollege/science-arts/mcs-concentrations/chemistry/>)
- Environmental & Sustainability Studies (<http://coursecatalog.web.cmu.edu/intercollegeprograms/bxaintercollege/science-arts/mcs-concentrations/environmental-sustainability-studies/>)
- Mathematical Sciences (<http://coursecatalog.web.cmu.edu/intercollegeprograms/bxaintercollege/science-arts/mcs-concentrations/mathematical-sciences/>)
- Neurobiology (<http://coursecatalog.web.cmu.edu/intercollegeprograms/bxaintercollege/science-arts/mcs-concentrations/neurobiology/>)
- Physics (<http://coursecatalog.web.cmu.edu/intercollegeprograms/bxaintercollege/science-arts/mcs-concentrations/physics/>)

BSA students who are admitted as first years are undeclared until they have met with a concentration advisor and have submitted their signed Declaration form. BSA students who are admitted through internal transfer must have chosen an MCS concentration at the time of their application (which serves as declaration). All BSA students wishing to change their MCS concentration at any time following the initial declaration must meet with the advisor of their intended concentration area to complete a new Declaration form.
