

Architectural Technology, Minor

Minor in Architectural Technology

Available to non-architecture majors only (minimum 54 units total)

Overview

Carnegie Mellon Architecture offers several options for undergraduate students to pursue minors in addition to their primary degree. Contact academic advisor Heather Workinger Midgley (haw5@cmu.edu) for more information.

This sequence is for candidates who intend to develop intellectual links to the technical aspects of the profession.

Curriculum

Prerequisite Courses 22 units

		Units
33-141	Physics I for Engineering Students	12
21-120	Differential and Integral Calculus	10

Selective Courses 32 units

48-116	Introduction to Building Performance	3
48-215	Materials & Assembly	9
48-234	Structural Design 1: Form and Forces	6
48-324	Structural Design 2: Materials and Analysis	6
48-315	Environmental Systems: Climate & Energy in Buildings	9
48-432	Environment II: Design Integration of Active Building Systems	9
48-xxx	Architectural Technology Elective (pre-approval required)	Var.

Minimum units required for the Minor in Architectural Technology:
54
